

EQUIPMENT SPECS

OUR BLU-RAY PLAYER: OPPO BDP-95 Universal Audiophile 3D Blu-ray Disc Player -- is a DVD Blu-ray player and thanks to the high performance DAC chips, the toroidal power supply, high quality parts and engineering, the BDP-95 offers adequate sound with a low noise floor and distortion. Furthermore, the BDP-95 features a dedicated 2-channel analog output with specially optimized ES9018 DAC and output driving stages. Each output is driven by 4 DAC channels stacking together to achieve an agreeable audio performance.

OUR PROJECTOR: Epson Home Cinema 5040UB with 4K Enhancement and HDR (and 3D ready) this brilliant home theater projector supports 4K streaming devices and Ultra HD Blu-ray content. It's also compatible with High Dynamic Range (HDR) content, displaying an extraordinary range of brightness levels with deep, dramatic blacks. Delivering 2,500 lumen of color brightness and 2,500 lumen of white brightness, the 5040UB is ideal for a variety of rooms. Its expansive color gamut displays the entire sRGB and DCI color spaces. A 1,000,000:1 dynamic contrast ratio ensures rich detail in both bright and dark scenes, while its 16-piece glass lens achieves stunning clarity.

AUDIO MIXER: Mackie Micro Series 1202-VLZ

The versatile Mackie 1202-VLZ PRO Micro Mixer is built to last a long time. 12-line input mixer (4 mono, 4 stereo) comes equipped with Mackie's XDR studio-grade preamps on mono channels for ultralow noise, high-headroom performance. Also has XLR and 1/4" inputs on mono channels, phantom power, and powerful RF rejection thanks to a DC-pulse transformer. Other features include 2 aux sends, 2 stereo aux returns plus effects to Monitor, 3-band active EQ with Lo-Cut filter, ALT 3/4 stereo bus, a Control Room/Phones source matrix, a steel chassis, and sealed rotary controls.

- 4 channels equipped with XDR studio-grade mic pre-amps
- Ultralow-noise, high-headroom performance
- 8 line inputs
- Phantom power
- DC pulse transformer
- 2 aux sends
- 2 stereo aux returns
- Effects to monitor
- 3-band active EQ with low-cut filter
- Alt 3/4 stereo bus
- Control room/phones source matrix

PROFESSIONAL POWER AMPLIFIERS: USQ USA 900, Power Amplifier - Watts per channel 270/450/500. The USA Series includes a comprehensive set of advanced features. Neutrik Combo connectors provide active balanced XLR and 1/4" TRS inputs

for maximum input flexibility. Selectable input limiters reduce prolonged amplifier clipping, dramatically lowering distortion and protecting speakers. Variable low-frequency filters (30 Hz, 50 Hz, or flat) limit sub-audio cone motion, protecting speakers and increasing useable power within the speaker's operating range. These features, combined with our superior audio performance and reliability, make USA amplifiers some of our best sellers.

OUR SPEAKERS: Two Ramsa WS A-80 speakers, 160 Watt. Great full-spectrum sound from light-weight two-way speakers. These are some of the best small sound reinforcement speakers ever built. They are no longer being made and are much in demand as part of Panasonic's Ramsa professional series of speakers and other sound reinforcement.

Power handling Capacity: 160W continuous; 80 W RMS

Sound Pressure Level: 92 dB (1W, 1m)

Frequency Response: 65 to 20,000 Hz

Crossover frequency: 2,500 Hz

Speaker: Woofer: 20 cm (8") cone speaker

Dispersion: 60 o vertical, 60 o horizontal
